Risk Warning: Trading FX and CFD carries the risk of losing substantially more than your investment and is not suitable for all investors. You don't own or have any rights to the assets that underlie the derivatives (e.g., the right to receive dividend payments). You should not invest more than you can afford to lose and should ensure that you fully understand the risks involved. Past performance is no indication of future performance. 64.86% of retail investor accounts lose money when trading CFDs with this provider. You should consider whether you can afford to take the high risk of losing your money.

The information on this booklet is general in nature and doesn't take into account your personal objectives, financial circumstances, or needs. Accordingly, before acting on the advice, you should consider whether the advice is suitable for you having regard to your objectives, financial situation and needs. We encourage you to seek independent advice if necessary.

Vantage group of companies operate in various jurisdictions. The company your account will be held with will be made clear to you during the application process.
